Financially and socially, are largely due to his excellent health. If his system were clogged and feverish, no doubt he would fail as so many others do. But why not enjoy good health when one can please the palate at the same time? Syrup of Figs is not only pleasant to the taste, it also cleanses the system thoroughly, yet painlessly: it is harmless in its nature, and strengthens the organs on which it acts so that regular habits may be formed, and the sufferer permanently restored to health and happiness. PINKEYE.

A Remarkable Cure of a Horse.

Col. James L. Fleming, a prominent rovery merchant; amember of the firm of Fleming A Lofton, augusts, Ga., makes the following statement of the treatment of a valuable horse with Swift's Specific.

In the fail of 1883 I had a valuable colt taken with a severe case of Pinkeye, which resulted in the most fearful case of blood poisoning I have ever seen. After eight on the most fearful case of blood poisoning I have ever seen. After eight on the most fearful case of blood poisoning I have ever seen. After eight on the most fearful case of blood once, because of swolen limbs. His right hind leg was as large as a man's body, and had on it over forty running sores. He had also a number of large sores on his nooty and other limbs. He was a most pittable looking object and I was advised to end in sufferings with the shot gun. He was a valuable suitant, and I did not wan to lose him After racking my brain in search for another remedy more efficacious, I thought of Swiff's Specific. I knew it was valuable to the human family as a blood purifier, and why should it not be for the animal as well? I did not hesitate, but sent, isat July, to Atlanta for a supply.

I began the treatment with 4 or of S. S. and 4 or, of water three times a day. This I continued for a week. Then I increased the doas to 6 or, of ea h and continued for a week. Then I increased the doas to 6 or, of ea h and continued for a week. Then I increased the doas to 6 or, of ea h and continued for a week. Then I increased the doas to 6 or, of ea h and continued for a week. Then I increased the doas to 6 or, of ea h and continued for a week. Then I increased he do on the same and the head of the first week the horse had a fair appetite, which he had not had since his sickness. At the crid of the result was that at the end of the first week the horse had a fair appetite, which he had not had since his sickness. At the crid of the series had only four small sores left on him, and they healed up immediately.

In August isst all symptoms of the disease passed awa
